TROPICAL CYCLONE BULLETIN NO. 5 Tropical Depression DODONG

Issued at 11:00 AM, 14 July 2023

Valid for broadcast until the next bulletin at 2:00 PM today.

DODONG MAINTAINS ITS STRENGTH AS IT MOVES NORTH NORTHWESTWARD OVER THE NORTHWESTERN CAGAYAN AREA

Location of Center (10:00 AM)

The center of Tropical Depression DODONG was estimated based on all available data in the vicinity of Allacapan, Cagayan (18.2°N, 121.5°E)

Intensity

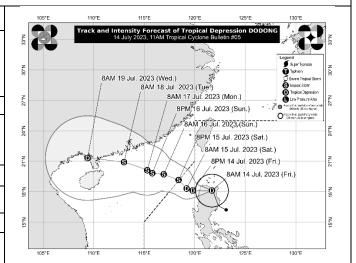

Maximum sustained winds of 45 km/h near the center, gustiness of up to 75 km/h, and central pressure of 1000 hPa

Present Movement

North northwestward at 15 km/h

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to 180 km from the center

TRACK AND INTENSITY FORECAST

	Center Position				sity	Movement
Date and Time	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	dir. and speed (km/h)
12-Hour Forecast 8:00 PM 14 July 2023	18.1	119.8	80 km West of Laoag City, Ilocos Norte	45	TD	W 15

TROPICAL CYCLONE BULLETIN NO. 5 Tropical Depression DODONG

Issued at 11:00 AM, 14 July 2023

Valid for broadcast until the next bulletin at 2:00 PM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT							
TCWS No.	Luzon	Visayas	Mindanao				
Wind threat: Strong winds	Cagayan, Isabela, Apayao, Kalinga, Abra, Mountain Province, Ifugao, Benguet, Ilocos Norte, Ilocos Sur, La Union, and the northern portion of Pangasinan (San Nicolas, San Manuel, Sison, San Fabian, Pozorrubio, Bolinao, Bani, City of Alaminos, Sual, Labrador, Lingayen, Agno, Binmaley, Dagupan City, San Jacinto, Mangaldan, Anda)	-	-				
	Warning lead time: 36 hours Range of wind speeds: 39 to 61 km/h (Beaufort 6 to 7) Potential impacts of winds: Minimal to minor threat to life and property						

HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Forecast accumulated rainfall for today to tomorrow morning

• 50-100 mm: Cagayan, Isabela, Quirino, Nueva Vizcaya, Apayao, Kalinga, Abra Benguet, Ilocos Norte, La Union, and Pangasinan

Under these conditions, **flooding and rain-induced landslides are possible**, especially in areas that are highly or very highly susceptible to these hazard as identified in hazard maps and in localities that experienced considerable amounts of rainfall for the past several days.

For more information on the areas affected by occasional to frequent rains from the Southwest Monsoon enhanced by DODONG refer to the Weather Advisory #4 for Southwest Monsoon issued at 11:00 AM today and the 24-Hour Public Weather Forecast at 4:00 AM today.

Severe Winds

Minimal to minor impacts from strong winds (i.e., strong breeze to near gale strength) are also possible within any of the areas where Wind Signal No.1 is currently in effect.

The enhanced Southwest Monsoon may bring gusty conditions over the following areas that are not under any wind signal (especially in coastal and upland/mountainous areas exposed to winds:

- Today: MIMAROPA, Bicol Region, Western Visayas, CALABARZON, Metro Manila, and other areas of Central Luzon.
- Tomorrow: MIMAROPA, Bicol Region, Western Visayas, CALABARZON, Zambales, Bataan, and Aurora
- Sunday: MIMAROPA, Bicol Region, Western Visayas, Cavite, Zambales, and Bataan.

HAZARDS AFFECTING COASTAL WATERS

In the next 24 hours, DODONG and the enhanced Southwest Monsoon may bring moderate to rough seas over the eastern (1.5 to 2.5 m) and western (2.0 to 3.5 m) seaboards of Northern Luzon, and the western seaboards of Central and Southern Luzon (2.0 to 3.5 m). Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea. If inexperienced or operating ill-equipped vessels, avoid navigating in these conditions.

TROPICAL CYCLONE BULLETIN NO. 5 Tropical Depression DODONG

Issued at 11:00 AM, 14 July 2023 Valid for broadcast until the next bulletin at 2:00 PM today.

TRACK AND INTENSITY OUTLOOK

- DODONG is forecast to move westward or west northwestward across the northern portion of mainland Northern Luzon and may emerge over the waters west of Ilocos Provinces later this afternoon or evening. Afterwards, DODONG will move generally northwestward over the West Philippine Sea until it exits the Philippine Area of Responsibility (PAR) tomorrow evening or on Sunday. Outside the PAR, DODONG will move generally west northwestward over the waters south of southern China.
- DODONG will remain as a tropical depression during the remainder of its traverse of mainland Northern Luzon. It may reach tropical storm category by tomorrow afternoon or evening while over the West Philippine Sea

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.

The next tropical cyclone bulletin will be issued at 2:00 PM today.
